

Laura Heine Collage Quilt Technique

I am excited to come share Laura Heine's Collage Quilting techniques with you. I will be bringing a lot of samples featuring different techniques and finishing ideas. I love collage quilting at though it looks so complex it is quite simple and the basics can easily be learned over the course of a short talk.

The following topics will be addressed:

- Necessary Supplies and Nice to Have Supplies
- Fabric Selection and building your own kit
- Creating your collage with the newest techniques
- Different ways to finish your projects (sewing skills not always necessary)
- If time allows I will introduce you to combining Inktense Pencils with Collaging

I am looking forward to sharing my love of collage quilting with all of you and hope that every one of you leaves my talk at your February meeting feeling that you can create your own collage quilt.
